

Wastemanagement in Säffle municipality

In Säffle municipality household waste is collected by us. To order waste management service contact our customer service at 0533-68 15 89. It is possible to order an all-year service or just service during the summer. Please contact us for information about fees etc.

Waste is collected every two weeks as a standard and the waste shall be placed in a bag and in the container that is supplied to you after we have received your order.

In the green container you are allowed to throw:

- Leftovers from meals (organic waste).
- Plastic- and paper materials that isn't packaging materials.
- Dippers and other sanitary products.
- Cloth
- Other materials that are combustible.

In the green container you are not allowed to throw:

- Packaging materials (plastic, paper, glas) or newspapers
- Hazardous waste.
- Bulky waste such as wood, scrap metal or other large objects that don't fit in the bin.
- Non-combustible waste.
- Batteries or electronic waste.

Östby miljöstation, our recycling center

At Säffle and Åmål municipalities recycling center, Östby miljöstation, you can leave hazardous waste, bulky waste, electronic waste and non-combustible waste. The recyclingcenter is situated by the road E45 between Säffle and Åmål.

Small recycling centers

At several different places in the municipality small recycling centers are situated where you can leave packaging materials (plastic, paper, glas and metal), newspapers and small batteries.
